

RFQ 2FY20 Vendor Question 9

Pursuant to the response provided for RFI #2, please confirm all civil work will be contracted direct by the owner outside of the general contractor's contract inclusive of sidewalks, grading, landscape, asphalt base, asphalt, parking lot striping, DOT signage, wheel stops, storm sewer, sanitary sewer, and water utilities. If the general contractor is to contract for the asphalt base, asphalt and sidewalks, please advise if the owner will contract for the grading of the asphalt and sidewalks. **All civil will be completed outside this project with the exception of the sidewalks that run in between the buildings. The front side walk that runs along the parking lot and parking lot itself are part of our separate contract for civil work as well as the other items you listed in your question.**
