Mobile Crisis Response Team

A mental health crisis can be a scary time for the individual experiencing the crisis and their loved ones. Our Mobile Crisis Response Team (MRT) provides on-site mental health crisis intervention and management.

Families may not know how to help or where to turn for professional support. In some situations, the emergency room (ER) is the best place to go. But many ERs aren't prepared to provide the appropriate level of treatment for someone having a psychiatric issue. This can lead to long wait times and frustration while the ER team brings in the necessary providers. In these situations, the BayCare Behavioral Health MRT has the experience and expertise to:

- Rapidly respond, accurately assess and provide effective early intervention for those in crisis
- Make clinical decisions concerning the individual's immediate safety
- Help those in crisis with navigating their entry into behavioral health care

Who We Serve
